CNP was founded in 1988 to serve the unique role of a local community development funding and support intermediary for community development corporations (CDCs). In 1991 and 1992, the New Village Corporation (NVC) and Village Capital Corporation (VCC) subsidiaries, respectively, were established to further real estate development and lending in the neighborhoods. Near the end of 2021, CNP completed a strategic plan that refocused its efforts on the health of CDCs. The new mission is to foster the equitable revitalization of neighborhoods throughout Cleveland by strengthening the community development ecosystem.

The Neighbor to Neighbor Cleveland Program (N2N) – a Cleveland Community Engagement and Data Collection Project - is designed to build community engagement and organizing capacity across Cleveland neighborhoods, as well as create a platform for collecting granular community-level data on the digital divide across the city through survey collection. The data is expected to guide strategic investments and interventions to achieve digital equity for Cleveland and for the most impacted Cleveland residents.
